

Porcelain Heart

[BarlowGirl](#)

Broken heart, one more time
Pick yourself up, why even cry
Broken pieces in your hands
Wonder how you'll make it whole
You know, you pray, this can't be the way
You cry, you say, something's gotta change
And mend this porcelain heart of mine, of mine
Someone said a broken heart
Would sting at first then make you stronger
You wonder why this pain remains
Were hearts made whole just to break
You know, you pray, this can't be the way
You cry, you say, something's gotta change
And mend this porcelain heart of mine, of mine
Creator only you take brokenness
And create it into beauty once again
You know, you pray, this can't be the way
You cry, you say, something's gotta change
You know, you pray, this can't be the way
You cry, you say, something's gotta change
And mend this porcelain heart
Please mend this porcelain heart of mine, of mine
Creator mend this heart
