

Psycho Lovers

Local Natives

When the sun that covers me
I let a lifetime go
Then all we want
Is a love to lean onAnd we just learned how to breathe
And L.A. falls into the sea
Then all we want is a love to lean onWe won't give up
Paradise
Heaven wants us alive
Psycho lovers out of our minds
Heaven wants us alive
I've got a violence in my dreams
I've got a makeup on my teeth
We're all hysterical for love
A love to lean onWe won't give up
Paradise
Heaven wants us alive
Psycho lovers out of our minds
Heaven wants us aliveWhen the light that covers us
We let a lifetime go
And all we want is for love to be enough
We won't give up
Paradise
Heaven wants us alive
With or without human doubt
Heaven wants us alive
