

Slowly Freaking Out

Skylar Grey

Every day is one more inch of
A slow play, sinking in
Vision fading

Suffocating inside my own skinAnd I'm fighting the stranger in my eyes
And I know that only one of us will survive
If I can't save us I've got to save myselfI can't stay

Here in this place

I'm slowly freaking out

I'm slowly freaking out

I can't breathe

You're a disease

I'm slowly freaking out

I'm slowly freaking out

And out and out again

Enigmatic

So close, static

This feeling I can't shake

But just remember that I want you

My will can never breakAnd I'm fighting the stranger in my eyes

And I know that only one of us will survive

If I can't save us I've got to save myselfI can't stay

Here in this place

I'm slowly freaking out

I'm slowly freaking out

I can't breathe

You're a disease

I'm slowly freaking out

I'm slowly freaking out

I can't stay in this place

I can't breatheI can't breathe

You're a disease

I'm slowly freaking out

I'm slowly freaking out

And out and out again
