

Cave Me In (Raiden Remix)

Gallant, Tablo & Eric Nam

You got me feeling like...
Ooh
You get me lifted like...
Let's go These flies on my window are winners in a losing game
Dip, duck, roll, and hover
They barely see a season change While you and me live like birds on a power line
Hands gripping, and our fingers fried
God bless those Northern lights
And our own devices, babe
Entropy multiplies
Clock's ticking and I'm mortified
'Cause in the back of my mind
In the back of my hemisphere
Baby, I want you to cave me in
So maybe I won't have to admit it
Baby, I want you to cave me in
So maybe I won't ask to forget it Love's either got you over heels or overdosed
It's got you off your feet or on your toes
It's got you out your seat or in your place
It's got you digging it or your grave
Love's got you mad about or just about mad
It's got you in a crush or it's got you in a crash
What used to make your heart sing a hit, sing a smash
Will make you want to hit, wanna smash
Everything that you had into pieces
But love becomes clear when in pieces
What you couldn't see and hear during peace is
Why a heart becomes years into pieces
Yeah
Gravity makes wonders
But it also doesn't seem to wait
Float like clouds on water
Or waves across an open plane 'Cause you and me live like birds on a power line
Hands slipping and our fingers fried
God bless those Northern lights
And our own devices, babe
Entropy multiples
Clocks ticking and I'm mortified
'Cause in the back of my mind
In the back of my hemisphere Baby, I want you to cave me in
So, baby, I won't have to admit it
Baby, I want you to cave me in

So maybe I won't ask to forget it I want it, I do
(Girl, cave me in, I won't say it again, I want you)
I want it, I do
I want it, I do, do, do, do
(Girl, cave me in, I won't say it again, I want you) I want it, I do
(Girl, cave me in, I won't say it again, I want you)
I want it, I do
I want it, I do, do, do, do
(Just cave me in)
Ooh yeah I, ooh yeah, I do
