

Catapult

R.E.M.

We were little boys, we were little girls
It's nine o'clock, don't try to turn it off
Cowered in a hole, ope your mouthDid we miss anything, did we miss anything
Did we miss anything, did we miss anything
Catapult (catapult), catapult
Catapult (catapult), catapultWe were little boys, we were little girls
It's nine o'clock, don't try to turn it off
Cowered in a hole, ope your mouth
We in step, in hand, your mother remembers this
Hear the howl of the rope, a question
Did we miss anything, did we miss anything
Did we miss anything, did we miss anything
Catapult (catapult), catapult
Catapult (catapult), catapultMarch could be darker, March could be darker
Catapult (catapult), catapult
Catapult (catapult), catapultWe were little boys, we were little girls
It's nine o'clock, don't try to turn it off
Cowered in a hole, open your mouth
We in step, in hand, your mother remembers this
Hear the howl of the rope, a question
Did we miss anything, did we miss anything
Did we miss anything, did we miss anything
Catapult (catapult), catapult
Catapult (catapult), catapult
