

# Haste

**RY X**

Lay your secrets down  
Taste of violet found  
Tumble fingers silent through your garden  
Hardly breathing feeding almost started  
Climbing up on your heartache  
Tearing all of your cottons down  
you're asking me to wait  
Lay it down in my wolf haste  
Take it all if you feed me now  
you're asking me to wait  
But you're asking me to wait  
Lakes of fire found  
Hardly breathing feeding almost on me  
you're asking me too  
you're asking me too  
you're asking me too  
you're asking me to wait  
Climbing up on your heartache  
you're asking me to wait  
Tearing all of your cottons down  
you're asking me to wait  
Lay it down in my wolf haste  
you're asking me to wait  
Take it all if you feed me now  
you're asking me to wait  
But you're asking me to wait  
you're asking me to wait  
you're asking me too  
you're asking me too
