

# Savannah (feat. Philly K)

## Diviners

Lions roaring in the morning sun  
searching for a longer day  
people feeling like the light has just come  
we must never stop the way  
birds are chirping and i hear my name  
grass is green and so alive  
life is happy but it's sooo insane  
we must merely make a strivesavannah  
I'm coming home  
savannah  
we will never be alone  
savannah  
the beauty of the world  
savannah  
Let's all take a whirl  
savannahLions gone and come  
the birds are just begun  
we will always take a stand  
for the people, for the land  
Let's go back to when we were young  
for the animals we standLet's go back to when trees were swung  
kids across the landsavannah  
I'm coming home  
savannah  
we will never be alone  
savannahthe beauty of the world  
savannah  
Let's all take a whirl  
savannah  
I'm coming home  
savannah  
we will never be alone  
savannah  
the beauty of the world  
savannah  
Let's all take a whirl  
savannah  
I'm coming home  
savannah  
we will never be alone  
savannah
