

# Walking Shoes

## Mali Music

Got my walking shoes on  
Can't tell you where I'm going  
but I'm walking down this lonely road  
But at least the scenery is beautiful  
An no matter what I do I can't stop walking no  
I know its the only way to go  
And if I keep walking I'mma be ok  
Its not always about knowing why  
Sometimes its all about knowing what  
And that's enough to keep you walking everyday Yeah I believe, I believe  
But its a dream that I ain't seen yet  
Chasing a dream that I ain't dreamed yet  
But I'mma meet it halfway if I keep on walking, walking, walking If I keep on walking, yeah i  
know it when i see it walking, walking when i see it walking  
Always waiting for something good to find you  
But if it don't come what are you gone do  
And that's why I'm walking, walking  
Gotta keep on walking, walking I tell you when you've got a made up mind  
Even though winter feels like summertime  
In the night you see the light of day  
Cause I've been blind for way to long  
And you can't take my light away  
Even though all my times aren't happy times  
I get unsure and hope for brighter days  
I never let it slow my pace  
so knowing failure ain't an option  
And I've been promised  
and I'm on my way up  
Said I believe, I believe  
But its a dream that I ain't seen yet  
Chasing a dream that I ain't dreamed yet  
But I'mma meet it halfway if I keep on walking, walking, walking If I keep on walking yeah i  
know it when i see it walking, walking when i see it walking Always waiting for something  
good to find you  
But if it don't come what are you gone do  
And that's why I'm walking, walking  
Gotta keep on walking, walking Step 1, step 2, step 2, step 3  
Step 1, step 2, step 3  
Thy Word's a light unto my path  
A lamp unto my feet  
These shoes, these shoes, these shoes my shoes  
Walking towards the promise

Walking towards much better land Said I believe, I believe  
But its a dream that I ain't seen yet  
Chasing a dream that I ain't dreamed yet  
But I'mma meet it halfway if I keep on walking, walking, walking If I keep on walking  
walking, yeah i know it when i see it walking, walking when i see it walking Walking shoes,  
walking shoes
