

# Wildfire

## Zac Brown Band

Ain't nothing 'bout loving me  
Is gonna be easy  
I've never been the kind  
Who would ever play it safe  
If you wanna come along  
Then you best believe me  
I'm making you a promise  
That I'm never gonna break  
Gotcha burning like a wildfire, baby  
Running out of control  
Take you walking on a highwire crazy  
No net down below  
It's gonna get a little too far out there  
Just you wait and see  
Love you like a wildfire  
Come swimming in the flames with me  
It'll be the best part of a romance novel  
Writing our story, mama, line by line  
See how it might feel like trouble  
Staring down the barrel of a heart like mine  
And get you burning like a wildfire, baby  
Running out of control  
Take you walking on a highwire crazy  
No net down below  
It's gonna get a little too far out there  
Just you wait and see  
Love you like a wildfire  
Come swimming in the flames with me  
I wanna chase your love  
Like a tail chases a comet  
And move you like the wind  
Through the amber waves of grain  
I wanna lay you down  
In a field of autumn clover, honey  
Don't look down, just take my hand  
Wildfire, baby  
Running out of control  
Take you walking on a highwire crazy  
No net down below  
It's gonna get a little too far out there  
Just you wait and see  
Love you like a wildfire, wildfire  
Come swimming in the flames with me
