

Here To Stay

Lenka

I don't know anymore
I don't know what I've been fighting for
But something inside me won't go quietlyAnd I could be anywhere
'Cause we're all breathing the same air
It goes inside and makes me feels alive
And all I can say is, all I can sayI am here and I will be
Following my own way
Forever and a day
I am here and I'm here to stayOh, we are here and we will be
Following our own way
No matter what you say
We are here and we're here to stay
We are here to stay
No matter where you roam
Anywhere you lay your heart's your home
Stand your ground if they push you down
Because all you can say is, all you can sayWe are here and we will be
Following our own way
No matter what you say
We are here and we're here to stayWe are real and we feel it
When you deny us
Or when you get tired of us
We are here and we're here to stay
We are here to stayI never knew when enough was enough
Or whether to stay when the going was tough
But I won't let a little heart be afraid
And all I can say is, all I can say
I am here and I will be
Following my own way
Forever and a day
I am here and I'm here to stay
Oh, we are here and we will be
Following our own way
No matter what you say
We are here and we're here to stay
We are here to stay
