

We Are Impossible (feat. The Presets)

Dillon Francis

Put it down a little bit,
Let's talk about this mess we're making
Before we set the fireworks
Till the stars, till the stars
Tried to run away from this,
We questioned every chance we've taken
But something keeps dragging me back
To the start, to the startHey, we are impossible
In a messed up world
We are impossible
Hey, we are impossible
In a crazy world
We are impossible
Oh! We can't be separable,
So I pushed you away
We can't be separable,
Hey! We are impossible
In a messed up world
We are impossible
Waiting in an empty bay,
Haunted by our mind racing
I'm picking up pieces you've never
From my heart. From my heart
I'll let you fade away instead,
Fading like a sunset
But something keeps dragging me back
To the start, to the start
Hey, we are impossible
In a messed up world
We are impossible
Hey, we are impossible
In a crazy world
We are impossible
Oh! We can't be separable,
So I pushed you away
We can't be separable,
Hey! We are impossible
In a messed up world
We are impossible
Tell me something, something I need to hear
'Cause spending my times as we're miles away
I know that something's never gonna change

So put down your?? now we're close to the end,
Giving up on giving in
Yet something keeps dragging me back
To the start, to the start
Hey, we are impossible
In a messed up world
We are impossible
Hey, we are impossible
In a crazy world
We are impossible
Oh! We can't be separable,
So I pushed you away
We can't be separable,
Hey! We are impossible
In a messed up world
We are impossible! Hey!
