

Fix This

The Colourist

I tried so hard
Keeping up, keeping my head up
For what I thought was so right
Guess I'm not right always
And I thought love was a fight
You could tear each other down
Then come back to life
Guess I don't live always You said backs add up
I was wrong about us
Don't slam that door shut, just yet.
Hear me out
I wont sleep tonight
You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehow I tried so hard
Did you lie?
And I never showed you my cold feet, just my pride
Guess I killed you always
But I see light in your eyes
Even though I don't know how you kept up the fight
Guess I cant win always You said backs add up
I was wrong about us
Don't turn and walk out just yet
Hear me out
I wont sleep tonight
You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehow I will fix this somehow And you wont say
And you wont say
And you wont say we're done
And you wont say we're done
I won't let this go on
I wont let this go
And you wont say we're done
And you wont say we're done
I wont let this go on
I wont let this go Hear me out
I wont sleep tonight

You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehowHear me out
I wont sleep tonight
You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehowI will fix this somehow
I will fix this somehow
