## **Alien Boy**

## **Oliver Tree**

I fell down to earth
From a hundred miles away and somehow
I still make it work

But it's overrated and somehow played outThree doors down so you can't ignore it I'll hunt you down like a tyrannosaurus

My teeth are sharp like a great white shark

Let me taste that flesh, it's my favorite partGot an eagle beak with the ostrich feet

Seven spy garage for every day of the week

Means I'm still up working while your bitch ass sleeps

I'm an alien among the human beings

I fell down to earth

From a hundred miles away and somehow

I still make it work

But it's overrated and somehow played outTen doors down but you still can't see me

I talk a lot of shit so you won't believe me

I really wouldn't say, anything else

I shouldn't be standing here all by myself'Cause I'm out there

Tried to tell you that I'm out here on my own

I told you I was out there

Tried to tell you that I'm out here on my ownI fell down to earth

From a hundred miles away and somehow

I still make it work

But it's overrated and somehow played outI won't be here long at all

I fell down to earth

From a hundred miles away and somehow

I still make it work

But it's overrated and somehow played out
