

Find Me (feat. Dion Timmer & Excision)

[Datsik](#)

Stop chasing all the city lights
Breath me in, go on and take a bite
Count on me to make you come alive
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight You know where to find me tonight Stop chasing all the city
lights
Breath me in, go on and take a bite
Count on me to make you come alive
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight This shit's about to get heavy
You know where to find me tonight
You know where to find me tonight
