

Capital Letters

Ned's Atomic Dustbin

We both know I need this too much
Only I know that it's got to stop
But I can't keep my anger up Change it, it's your job
Change it, it's your job
Unstuck
Unstuck We both know I need this too much
Only I know that it's got to stop
But I can't keep my anger up Change it, it's your job
Change it, it's your job
Unstuck
Unstuck
She'll break some hearts when she grows up
She'll break some hearts if she owns up
Mine is one
Mine is one Well she looks at me in that tone of voice
She don't need to make a noise
Can read her thoughts
In capital letters I've lost it since I've met her
I've lost it since I've met her Well she looks at me in that tone of voice
She don't need to make a noise
Can read her thoughts
In capital letters I've lost it since I've met her
I've lost it since I've met her
She'll break some hearts when she grows up
She'll break some hearts if she owns up
Mine is one
Mine is one
