

# Like Lightning

**Idina Menzel**

Looking for a girl I used to know  
She used to walk these city streets  
Going anywhere the wind will blow  
She used to look a bit like me  
But someday Im gonna find her again  
And I'm gonna tell her the truth  
Shake them by the shoulders, make a scene, nobody is fireproof  
Just live and learn, you will get burn  
But you'll get your turn  
If you keep fighting  
All my life, is lighting up in front of me  
All this time, I felt that I was running to the sun  
Seems that I'm the only one too blind  
To see the fire inside me  
Like lightning trying to get out  
All my life  
Looking for a sing along the way, dying to finally get back home  
And I'm forever trying to keep the faith  
Praying but it's a lonely road  
Hope is lesson I've learned  
Hope it's the best way to burn  
And I'll get my turn  
If I keep fighting (fighting)  
All my life, is lighting up in front of me  
All this time, I felt that I was running to the sun  
Seems that I'm the only one too blind  
To see the fire inside me  
Like lightning trying to get out  
All my life  
All my life  
I'm gonna find that girl some how  
I'm gonna finally ignited  
What would the future may said now  
I wanna know, am I turn alright  
All my life, is lighting up in front of me  
All this time, I thought that I was running to the sun  
Seems that I'm the only one too blind  
To see the fire inside me  
Like lightning  
(All my life)  
Like a lighting  
(All my life)

Like a lighting  
Seems that I'm the only one too blind  
To see the fire inside me  
Like lightning trying to get out  
All my life
