Don't Look Down (feat. Usher)

Martin Garrix

Is your head spinning?
Is your heart racing?
Is there fire in your veins?Are your bones burning?
Is your skin yearning?
'Cause you're driving me insaneI kinda feel like I, feel like I saw the light
You got me way up, a thousand miles
Can we stay right here in this atmosphere
Like we're flying out in space?Don't look down
Up this high, we'll never hit the ground
Don't look down
See that sky, we're gonna reach it now
Do you feel the lightning inside of you?
Will you follow through if I fall for you?
Don't look down
Up this high, we'll never hit the groundAre your hands shaking?
Are your fears breaking?
Are you climbing over walls?Are the times changing?
Is the noise fading?
'Cause I wanna get it allI kinda feel like I, feel like I saw the light
You got me way up, a thousand miles
Can we stay right here in this atmosphere?
Or are you afraid to fall?Don't look down
Up this high, we'll never hit the ground
Don't look down
See that sky, we're gonna reach it now
Do you feel the lightning inside of you?
Will you follow through if I fall for you?
Don't look down
Up this high, we'll never hit the groundDon't look downDo you feel the lightning inside of you?
Will you follow through if I fall for you?
Don't look down
Up this high, we'll never hit the ground
