

# Street Fight

## Smallpools

Caught in a street fight  
You need a life line  
Go on and use me  
I'll be your Bruce Lee  
Beaten down, from high to low  
But that don't make sense to me  
They say this town has broken bones  
But that don't make sense to me  
You've been driving through the desert  
Talking to yourself  
I'm supposed to make it right  
So don't leave this way  
You've been running with the devil  
Swinging at your friends  
Your friends, your friends, yeah yeah  
You're caught in a street fight  
You need a life line  
Go on and use me  
I'll be your Bruce Lee  
Under the street lights  
I'll wait a lifetime  
Just like the movies, I'll be your Bruce Lee  
I'll be your Bruce Lee  
Hit the ground, nobody to hold  
I'll lift you up again  
Lost and found, on the side of the road  
I'll bring you back again  
You've been driving through the desert  
Talking to yourself  
I'm supposed to make it right, so don't leave this way  
You've been swinging at your friends  
Your friends, your friends, yeah yeah  
You're caught in a street fight  
You need a life line  
Go on and use me  
I'll be your Bruce Lee  
Under the street lights  
I'll wait a lifetime  
Just like the movies, I'll be your Bruce Lee  
I'll be your Bruce Lee  
Caught in a street fight  
You need a life line

Go on and use me  
Caught in a street fight  
Go on and use me  
I'll be your Bruce Lee  
Under the street lights  
I'll wait a lifetime  
Just like the movies, I'll be your Bruce Lee  
I'll be your Bruce Lee
