

# Blue Lamp

Stevie Nicks

There was no message to be found  
Anywhere in sight, inside or out  
I had looked everywhere but the only lamp  
Left on in the house, was a blue light  
A blue light I was not ready, I'm no enchantress  
And I was too proud  
Go find some Christmas angel  
Then give that to her  
If that's what she wants guardian angel, guardian  
If you were wiser you would get out Downstairs the big old house is mine  
Upstairs where the stars still laugh and they shine  
Downstairs where the big old house is mine  
Where [Incomprehensible] stars still laugh And stars still laugh and shine  
And the stars still laugh and cry and shine  
And the stars still laugh and cry and shine  
And the stars still laugh and shine and shine Don't listen to her, listen through her  
And some Christmas angel  
Freedom, well give that to her  
Oh, if that's what she wants, guardian angel, guardian  
If you were wiser you would get out  
And the light that shines through the shining night  
Is a lamp that I carried from my mother's home  
And the light that burns through the window pane and the love remains And the light that shines  
through the shining night  
Is a lamp that I carried from my mother's home  
And the guardian of your challenge does not cry
