

# Long Long Journey

Enya

City lights shine on the harbor  
Night has fallen down  
Through the darkness and the shadow  
I will still go on  
Chorus:  
Long Long Journey  
Through the darkness  
Long Long way to go  
But what are miles across the ocean to the heart that's coming home?  
Where the road runs  
through the valley  
Where the river flows  
I will follow every highway  
To the place I know  
Chorus:  
Long Long Journey  
Through the darkness  
Long Long way to go  
But what are miles across the ocean to the heart that's coming home?  
Long Long Journey  
I don't know where  
Long Long way to go  
But what are sighs and what is sadness to the heart that's coming home?  
Chorus:  
Long Long Journey  
Through the darkness  
Long Long way to go  
But what are miles across the ocean to the heart that's coming home?  
Long Long Journey  
Out Of Nowhere  
Long Long way to go  
But what are sighs and what is sadness to the heart that's coming home?
