And it don't stop  
A lot of niggas out there think that they can do what we do  
Be my guest, go front for the people  
But just like a store front, they gon see through

That you sweet like bubble gum and they gon eat you  
How you blowing up nigga, they chewing you  
And when you hit rock bottom, they shoo'ing you  
Like "ooh you, ooh, get away"  
Not you, yeah right, ok  
Don't listen to these guys  
These niggas full of lies  
Cut em open and they cover up the floor, you surprised  
Everytime they talk about what they gon get  
They been looking at my blog, knife and forking my shit  
While I'm tryna get the new G-5 with the kit  
With the bed in the back cause my son hate to sit  
And all that dark blue shit, ya'll niggas been had  
My diamonds rainbow like the register for black  
Every aspect where the plane [?]  
[?] brightness like a chain poster have  
Got it from the ring so they know that it's great  
Plus the Audemar, I guess my wrists couldn't wait to tell ya...
