

Back for More (feat. Daecolm)

Feder

Being young is beautiful
Everything, I want it more
Could have been everything
Now you've gone, we've lost it all
Black cards, going yards
Hotels, co-stars
Never waited for my love
Now you've gone, we've lost it all
Baby when you're in
I need something breakin' your heart
When the bottle's empty
And you've tasted every drink in the bar
Running out of will
Feeling like you're on your last straw
I'm not there to fill up your cup
I know that you'll be coming back for more
You, you wanna play with fire
You know what I'm gonna say
I know that you'll be coming back for more
Now you say it, I'm all yours
But I heard it all before
I know that you'll be coming back for more
Okay, magazine you sold out, stories
Hope it was worth it
Now you've gone, we've lost it all
First class, VIP pass, max state, all access
You trade it all for love
And now you've gone, we've lost it all
Baby when you're in
I need something breakin' your heart
When the bottle's empty
And you've tasted every drink in the bar
Running out of will
Feeling like you're on your last straw
I'm not there to fill up your cup
I know that you'll be coming back for more
You, you wanna play with fire
You know what I'm gonna say
I know that you'll be coming back for more
Now you say it, I'm all yours
But I heard it all before
I know that you'll be coming back for more
I know that you'll be coming back
I know that you'll be coming back
I know that you'll be coming back
I know that you'll be coming back for more

You, you wanna play with fire
You know what I'm gonna say
I know that you'll be coming back for more
Now you say it, I'm all yours
But I heard it all before
I know that you'll be coming back for more
