

# Predators

## Iron Savior

(Words & Music by Sielck)(Hey you shadow bastards! We'll blow your asses out of space and time! Understand?)They came to take our land and lifes  
To terminate our race  
All across the galaxy  
They leave a deadly traceEmerged from Hell - an evil spell  
The universe is cursed  
They came to please and satisfy  
Their everlasting thirst  
We will stand  
Together til the end  
Into the fire we will ridePredators - on the hunt for prey  
Predators - come to make our dayYou gonna payWe warn you now  
You things up there  
It's time to understand  
We'll blow you into nothingness  
Whatever you may sendWe will stand...Predators - on the hunt for prey...(Solo Piesel)  
Onto the battlefield  
Onto the firing line  
We gonna blow your asses  
Out of space and time  
Yeah!Predators - on the hunt for prey...You gonna pay - some day
