

Party At Ground Zero

Fishbone

Party at ground zero
Every movie starring you
And the world will turn to flowing
pink vapor stewPlease do not fear 'cause Fishbone is here to say (say what?)
Just have a good time the stop sign is far away
The toilet has flushed and green lights are a ghost
And drop drills will be extinct
Speedracer cloud has come
They know not what they've done
Sin has just won
The planet is a crumb
Johnny, go get your gun
For the commies are in our hemisphere today
Ivan, go fly your MIG
For the Yankee imperialists have come to playJohnny goes to Sally's house to kiss her goodbye
But Daddy says to spend the night
They make love 'till the early morning light
For tomorrow Johnny goes to fightJohnny, Ivan, Ian, everybody come along
For our nations need new heroes
Time to sing a new war songParty at ground zero
Every movie starring you
And the world will turn to flowing
Pink vapor stew
Please do not fear 'cause Fishbone is here to say (say what?)
Just have a good time the stop sign is far away
The toilet has flushed and green lights are a ghost
And drop drills will be extinct
Speedracer cloud has come
They know not what they've done
Sin has just won
The planet is a crumbParty at ground zero
Every movie starring you
And the world will turn to flowing
Pink vapor stew x8
