

# Ludens

## Bring Me The Horizon

Some resist the future, some refuse the past  
Either way, it's messed up if we can't unplug the fact  
That a world covered in cables was never wired to last  
So don't act so surprised when the program starts to crash  
How do I form a connection when we can't even shake hands?  
You're like the phantom greeting me  
We plot in the shadows, hang out in the gallows  
Stuck in a loop for eternity  
Do you know why the flowers never bloom?  
Will you retry or let the pain resume?  
I need a new leader, we need a new Luden  
A new Luden, new Luden, yeah  
So come outside, it's time to see the tide  
It's out of sight, but never out of mind  
I need a new leader, we need a new Luden  
Sticks and stones may break my bones, but soon the sting will pass  
But names can dig so many graves you won't know where to stand  
And I don't feel secure no more unless I'm being followed  
And the only way to hide myself is to give 'em one hell of a show  
How do I form a connection  
when we can't even shake hands?  
You're like the phantom greeting me  
We plot in the shadows, hang out in the gallows  
Stuck in a loop for eternity  
Do you know why the flowers never bloom?  
Will you retry or let the pain resume?  
I need a new leader, we need a new Luden  
A new Luden, new Luden, yeah  
So come outside, it's time to see the tide  
It's out of sight, but never out of mind  
I need a new leader, we need a new Luden  
A new Luden, new Luden, yeah  
A new Luden, new Luden, yeah  
A new Luden, new Luden, yeah  
A new Luden, new Luden, yeah  
Yeah  
Alright, you call this a connection?  
You call this a connection?  
You call this a connection? Okay  
You call this a connection?  
Oh, give me a break  
Oh, give me a break  
Oh, give me a break, okay  
Ugh, oh  
Do you know why the flowers never bloom?  
Will you retry or let the pain resume?  
I need a new leader, we need a new Luden  
A new Luden, new Luden, yeah

So come outside, it's time to see the tide  
It's out of sight, but never out of mind  
I need a new leader, we need a new Luden  
A new Luden, new Luden, yeah A new Luden, new Luden, yeah  
A new Luden, new Luden, yeah  
A new Luden, new Luden, yeah Do you know why the flowers never bloom?  
Will you retry or let the pain resume?  
I need a new leader, we need a new Luden
