Opinion Overload

Simple Plan

So you think you got me figured outWhy don't you go ahead and tell me what I'm all about
You know I'm dying to hear it
I'm gettin' sick of all the sticks and stones you throw
Now it feels like it's opinion overload
I can take it but I'd rather leave it
Get out of my faceQuit bringing me down
I don't care what you say
So what part of that don't you understand
Hey!
I'm doing things exactly like I want to
What part of that don't you understand
Hey!
And I don't give a damn if you don't approve
What part of that don't you understand
Hey!
You're so tough throwing punches with your wordsYou think you're clever, let me tell you that you're not the first
Say something I haven't heard yet
Disrespectful, always quick to judge
I kind of wonder if you're doing it just because
It must be nice being perfect
Get out of my faceQuit bringing me down
I don't care what you say
So what part of that don't you understand
Hey!
I'm doing things exactly like I want to
What part of that don't you understand
Hey!
And I don't give a damn if you don't approve
What part of that don't you understand
Hey!
I won't apologize for what I feel insideI won't be pushed around
I won't be backing down
Not doing what you say
I'll never change my ways
Get out of my face
Hey!I'm doing things exactly like I want to
What part of that don't you understand
Hey!
And I don't give a damn if you don't approve
What part of that don't you understand
Hey!

(I won't apologize for what I feel inside)
What part of that don't you understand
(Not doing what you say
I'll never change my ways)
What part of that don't you understand
