

# Tell Him the Truth

Keri Hilson

If you've ever kept a secret  
From the one you love  
This is what it feels like  
If you thought that i was perfect  
boy you were wrong  
Im far from that  
There's one thing that i've done to you  
That i regret and  
Look i know its no excuse but  
Im only human and young at that  
And im gonna make mistakes  
And hope you understand  
Didn't see it comin  
Wasn't on purpose  
Baby i promise  
I didnt mean to hurt you  
Will you forgive me  
You didnt deserve this  
I know it wasn't worth it  
Im a tell him the truth  
(when im ready to)  
Tell him the truth  
(some how)  
Gotta tell him the truth  
(Thats what i gotta do)  
Tell him the truth  
(but not now)  
Gotta Tell him the truth  
(just wait a little bit)  
Tell him the truth  
(he couldn't handle it)  
Tell him the truth  
(thats what i gotta do)  
Tell him the truth  
(but not now ooh)  
Didn't see when i had tears rolling down my face  
I turned my back  
It was heavy on the tongue  
And i kenew that you knew something was wrong  
I was about to break open spill out everything  
but something said  
Keri wait, Things are going great, what you gonna say

i dont know maybe something like Didn't see it comin

Wasnt on purpose

Baby i promise

I didnt mean to hurt you

Will you forgive me

You didnt deserve this

I know it wasn't worth it

Im a tell him the truth

(when im ready to)

Tell him the truth

(some how)

Gotta tell him the truth

(Thats what i gotta do)

Tell him the truth

(but not now)

Gotta Tell him the truth

(just wait a little bit)

Tell him the truth

(he couldn't handle it)

Tell him the truth

(thats what i gotta do)

Tell him the truth

(but not now ooh) I feel less (than nothin)

Lower (than zero)

and tired (of frontin)

Gotta tell him the truth ooh

I feel less (than nothin)

Lower (than zero)

and tired (of frontin)

Gotta tell him the truth ooh

Guess i've been waitin for the stars to align

there's no perfect time

i gotta tell him the truth

Cause it's hard to build the truth on a lie

and if thats what i want

i gotta tell him the truth

Im a tell him the truth

(when im ready to)

Tell him the truth

(some how)

Gotta tell him the truth

(Thats what i gotta do)

Tell him the truth

(but not now)

Gotta Tell him the truth

(just wait a little bit)

Tell him the truth

(he couldn't handle it)

Tell him the truth

(thats what i gotta do)

Tell him the truth

(but not now ooh)
