

Next To You

Bryson Tiller

(Oh, I've gotta get next to you)
(But you're so far away)
(Searching for a heart another world) Oh I dig, I dig I should probably say a couple words
(Oh, I've gotta get next to you)
(But you're so far away) Uh-uh-uh-uh-uh
(Searching for a heart another world away) Just listen I'm still waitin' here, askin' can you make
it here?
Hope that you will make it clear
Hate when you're away from here
Said I hate when you're away from here
So far away, countin' the days, until you get here
Wait until you g?t here
Yes, you'v? been missed baby
But it's fine, I'm okay
How much longer could it take?
Oh yeah, yeah, yeah, yeah
(Oh, I've gotta get next to you)
If I gotta get next to you
(But you're so far away)
If I gotta get next to you
(Searching for a heart another world away)
You're alright (How far out have I got to move?)
(Oh, I've gotta get next to you)
(But you're so far away) Oh yeah, ayy
(Searching for a heart another world away) Oh, ooh woah, ooh
(How far out have I got to move?)
(Oh, I've gotta get next to you)
(But you're so far away)
(Searching for a heart another world away)
Yeah, yes I'll wait up for you
I don't mean to rush you
But the rush I get touchin' you is something else, baby
I'm loving your ways (loving your ways)
Ayy, thank God I found you
Just be around you, and I
You tired of doing this, baby
But it's fine, I'm okay
How much longer could it really take?
Oh no (How far out have I got to move?)
Yeah, uh (oh, I've gotta get next to you)
Yes I gotta get next to you
(But you're so far away)

Yes I gotta get next to you (searching for a heart another world away)
(How far out have I got to move?)
You take my love for granted, baby, leavin' my love here stranded
Oh, ooh woah, ooh
(How far out have I got to move?)
(Oh, I've gotta get next to you) Yeah
Yes I hope you make time, baby make time (But you're so far away)
(Searching for a heart another world away)
Yes I hope you make time, baby make time
(You're all I)
