

Love Now (feat. All About She)

Calvin Harris

We must bear our souls, souls, souls
Let the fate we fight take hold, hold, hold
Baby when you come real close, close, close
It's alright cause I am whole Cause I have been running too long
I wanna love now
I wanna love now
I wanna feel
Don't weight up this heart that you hold
I wanna love now
I wanna love now
I wanna feel We can tiptoe round our dreams, dreams, dreams
Just to crash through reality, yeah
I won't spend it eternity
Hoping this time I'll be free, free
Cause I have been running too long
I wanna love now
I wanna love now
I wanna feel
Don't weight up this heart that you hold
I wanna love now
I wanna love now
I wanna feel
