

We're Gonna Find It Tonight

Chris Young

This ain't no candlelight
Warm glass of wine night
it's more a whiskey water
Drink that's on the rocks kind
Let's crank the radio
Get this truck on into town
Somebody call the fire department
We're gonna burn it down
Girl, I can see it in your eyes
I know you're feeling like getting wild
Whatever gets you moving
Gets you grooving
Gets you fired up
We're gonna get it
If you really want it bad enough
Yeah, we're gonna chase it
Get all crazy
Gonna lose our minds
Whatever's gonna get you feeling right
Girl, we're gonna find it tonight You call your girlfriends up
And I'll call some boys of mine
I know the bouncer at the bar
No we don't stand in line
I'll hit the DJ with some money
He'll play all your songs
We're gonna get it right
Even if it's all wrong
Girl, I can see you're eyes
I know you're feeling like getting wild
Girl, I can see it in your eyes
Gonna have fun when we get home tonight Yeah, we're gonna find it tonight
Whatever's gonna get you feeling right
Girl, we're gonna find it tonight
