Turn me up give me some more
Tom Jones your ready baby
Yeah that's it
Let... goChorus:
1, 2 Tom's coming for you
3, 4 gonna bust through your door
5, 6 you better lock up your chicks
7, 8 before it's to lateAct right ladies seem forgot body
Feels like pussycats come out
Late night no matter where they come
They always gonna come home to Tom Jones
30 years strong never went wrong
Still in the game I decide when I'm gone
Now I'm gonna set the whole house on fire
I won't stop rocking till I retireYou know and I know you gotta move on the dancefloor
We're blowing up this party with this sexbomb
Take my hand understand I'll rock for years all across the land
So let me see you shake it till the sun comesChorusNow you're in the mood
So let me see you move
I got you hypnotized with the sound of the groove
From london to L.A.
And back to the N.Y.
Turn on your satelites so we can see it worldwide
You know and I know you gotta move on the dancefloor
We're blowing up this party with this sexbomb
Take my hand understand I'll rock for years all across the land
So let me see you shake it till the sun comesChorusPussycats come out late night
Girl you make me wanna hollerTom Jones international baby (3*)ChorusTom Jones oh oh oh
