

Wrap U Around Me

Sean Kingston

Wrap u around .wrap u around me... wrap you around
Come over here give some of that
something that you got
Take my hand take my heart take me anywhere you are
When im loosing my mind and this madness just wont stop
I think about you i think about me i
think about us together
I think of your eyes lookin in mine
And im better... better
This world's too much for me to take
Come give me some some sweet escape
Get next to me come close to me wrap hold on me
Wrap u around me (2x)[wrap u around me
Take me into that place only your love can take me
Come touche me now cause youre the one with the touch that can save me
When it all gets too much when it all gets to greezy
I think about you i think about me i think
about us together
I think of your kiss touching my lips
And im better... better
This worlds too much for me to take
Come give me some some sweet escape
Get next to me come close to me wrap hold on me
Wrap u around me (2x)Your love surrounds me in my tender shelter
I dont know what could ever love me better
Nothing can make me feel the way i feel when im beside you
This worlds too much for me to
take
Come give me some some sweet escape
Get next to me come close to me wrap hold on me
Wrap u around me
Oh oh... oh ohhhhhhhthis worlds too much for me to take
Come give me some some sweet escape
Get next to me come close to me wrap hold on me
Wrap u around me (2x) (ohoh ohoh)Hey oh (12x)
