

Come Clarity

In Flames

Rushing through 30
Getting older every day
my soul drawing pictures of innocent times
Can you add color inside these lines? I want you to lead me
Take me somewhere
Don't want to live in a dream one more day I want you to lead me
Take me somewhere
Don't want to live in a dream one more day
Sure, if i would change my perspective
I'm certain I would change today
I'm certain it will change our ways
Would things fall into place I want you to lead me
Take me somewhere
Don't want to live in a dream one more day I want you to lead me
Take me somewhere
Don't want to live in a dream one more day
I want you to lead me
Take me somewhere
Don't want to live in a dream one more day
I want you to lead me
Take me somewhere
Don't want to live in a dream one more day
Take me somewhere
Don't want to live in a dream one more day
Don't want to live in a dream one more day
