WSTRN

I'm just in my zone[Chorus]
Say me creep creep on the social
No bother calling texting, calling you
When you see me ... know me social
Oh ye ye ye Get in the motion
Won't you get a little closer
Wine girl and bend over
Said she like a little rougher
We can keep it social, social

Ha... you should give me a phone call
Like a sweet pea, she want Fi open
What, you can't leave me pon me lonesome

Mo farah how you know the man is joking
So stress with them others need the progress
No less but the best when we stepping into it
New it be ludicrous, move ya bitch movie

She press me pon da internet
I said like ???
But she sees me and don't see a thing
She saw me make my way into that club that night
We didn't talk all night
The next day me have a direct message
She telling me how I ain't ???
But I swear she says she never chat to me

But she won't send snapchat to me
I told her I wanna do this candle lit dinner ting
Real talk, you think I made a song about a little fling
Big face rollin but she cares about the little things
She's the type I'd show off to my siblings
When your ready get a get a ring now[Chorus]
Say me creep creep on the social
No bother calling texting, calling you
When you see me ... know me social
Oh ye ye ye Get in the motion
Won't you get a little closer
Wine girl and bend over
