

Fall Down Or Fly

Lindi Ortega

You said, girl you got a dream,
Give it everything
You got to make 'em see
It was meant to be
Don't you think you ought to give it one more shot? You seen the glory and the shame
Beauty and the pain
Weakness and the strength
Waiting for the fame
Don't you think you ought to give it all you got?

Chorus:

Because this is your life
You can fall down or fly
You can burn out a shot if you want
This is your life
You can live it or die
You can quit now or try if you want
But don't you give up, don't you give up. You said what is there to lose?
Do it if you choose
I got faith in you,
Everything you do
I know you are gonna make it to the top. I can see it in your heart. You have come far
It's everything you are
Don't you think you ought to give it all you got?

Chorus:

Because this is your life
You can fall down or fly
You can burn out a shot if you want
This is your life
You can live it or die
You can quit now or try if you want
And if you should fall
Well then just get back up
Just roll the dice
Got to try out your luck
Give it a shot

Baby, please don't give up Chorus:

Because this is your life
You can fall down or fly
You can burn out a shot if you want
This is your life
You can live it or die
You can quit now or try if you want

But don't you give up, don't you give
Don't you give, don't you give up.
