

# Gravity

Jason Chen

I'm so lost in love  
With no rhythm or rhyme.  
I'm starstruck  
I'm so stuck with no sense of time I fall apart  
When you're gone I think  
That I need your love  
Just pull me  
Right back to start  
I don't know what this could be  
So lost in your mystery  
Caught up in your gravity  
Don't know how you got  
Such a hold on me  
Caught up in your gravity  
You know I never want  
You to set me free  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity) It's just you  
You're all I need  
To keep my heart tied  
When you're here  
I wouldn't fly away  
Oh no I won't even try  
We fall apart  
When you're gone I think  
That I need your love  
Just pull me  
Right back to start  
I don't know what this could be  
So lost in your mystery Caught up in your gravity  
Don't know how you got  
Such a hold on me  
Caught up in your gravity  
You know I never want  
You to set me free  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity) There's no way to stop  
This attraction

Cause baby you're my satisfaction  
If you disappeared  
It's like the world would fall  
I would lose control  
So never let me go  
Never let me go Oh Not even the flight  
Through the galaxy  
Could ever keep me away Caught up in your gravity  
(From you)  
Don't know how you got  
Such a hold on me  
Caught up in your gravity  
You know I never want  
You to set me free  
Caught up in your gravity  
Caught up in your gravity (never set me free)  
Caught up in your gravity  
Caught up in your gravity (gravity)  
Caught up in your gravity (gravity)
