All My Favorite People (feat. Brothers Osborne)

Maren Morris

Not everybody drinks
On a Tuesday night
Mixes their liquor with Crystal LightWith a couple of friends
They called out of the blue
And not everybody spends
What they made that week
On a tank of gas and a little bit of weed
But all my favorite people doI don't know about them
But I know about us
It is what it is and we
Love who we love
Not everybody gets
What we're going through
But all my favorite people do
Yeah, all my favorite people do
Not everybody's gonna find clarity
In a back porch sittin' kind of therapy
With a little bit of wine,
John Prine, and Camel Blues
Not everybody leaves
Well enough alone
Stays out of business that ain't their own
But all my favorite people doI don't know about them
But I know about us
It is whatit is and we
Love who we love
Not everybody gets
What we're going through
But all my favorite people do
Yeah, all my favorite people do
All my favorite people
All my favorite people
All my favorite people
Yeah, they doYeah, we ain't all perfect but we're doing alright
Everybody's worried about tryin' to get by
But all my favorite people doI don't know about them
But I know about us
It is what it is and we love who we love
Not everybody gets
What we're going through

But all my favorite people do
Yeah, all my favorite people do
