

# I Listen to the Bells

Luther Vandross

Christmas memories still remind me of you  
I wanna be closer to you  
And I wish you were closer to me  
Every song they play this time of year  
Every melody that I hear, every minute I wish  
I wish you were near Something's missin', must be you  
So I listen when the bells start ringin'  
My heart starts singin'  
I listen to the bells  
And they make me remember  
When we were so in love  
It was only last year, this time in December  
I listen to the bells  
And I reminisce  
I hear those Christmas bells  
But I never knew that I could miss you like this Love the lights and everything under the tree  
Friends come around  
They have a good time  
But it's not a party for me  
Call up Santa  
Tell him that I've been blue  
Tell him it's hard for me  
It's been a blue holiday, 'cause I'm missin' you  
I keep wishin', wondering if you'll think of me  
So I listen when the bells start ringin'  
My heart starts singin' Something's missin', must be you  
So I listen when the bells start ringin'  
My heart starts singin'
