

This Time

Carrie Underwood

Maybe it's the way that the stars are aligned
That's makin' me feel this way tonight
Maybe it's the words you left unsaid
Maybe it's the stardust in my headBut I wanna tell ya
That my heart is busting at the seams, yeah and
I can't wait another minute
Life is short, love is sweet
Ain't no time like this time babyMaybe it's the way that the night is still
Or the sound of the rain on my windowsill
That's making all the pieces fit
Makin' it all make perfect sense
But I wanna tell ya
That my heart is busting at the seams, yeah and
I can't wait another minute
Oh, life is short, love is sweet
Ain't no time like this time babyOoh, yeahGoes by so fast
Can't get it back
There ain't no time
Like this timeYeah, I just wanna tell ya
That my heart is busting at the seams, yeah and
I can't wait another minute
Oh, life is short, love is sweet
Ain't no time like this time babyMy little baby
Maybe it's the way that the stars are aligned
And there ain't no time
Ain't no time
Ain't no time
Like this time babyOoh yeah
Maybe it's the way that the night is still
Or the sound of the rain on my windowsill, yeah, yeah
