

# Down

## Chloe x Halle

It's been a little bit crazy, I've been feeling some type of way lately  
It's too much, I said no fun  
So can we have the remote to the TV called life?  
Can we play fast forward, rewind?  
Rewatch while we wine and dine it's so fine straight or spine  
And we won't grab it better catch it for a fly  
All this way too much for me (me)  
All this way too much for me (for me, me)  
Giving me anxiety  
All this way too much for me (me)  
All this way too much for me (for me, me) Can we all take it down, down, down  
Can we all take it down, slow-slow, down, down, down, down  
Ahhh ahhh  
I just wanna lay around in daisies  
Can we take a day just to be lazy? Just us  
I said no fun  
All this way too much for me (oh, it's too much)  
All this way too much for me (oh, it's too much)  
Giving me anxiety (yeah, it's too much)  
All this way too much for me (too much)  
All this way too much for me (too much) Can we all take it down, down, down  
Can we all take it down, slow-slow, down, down, down, down  
So can we have the remote to the TV called life?  
Can we play fast forward rewind?  
Rewatch while we wine and dine it's so fine straight or spine  
And we won't grab it better catch it for a fly  
All this way too much for me (oh, it's too much)  
All this way too much for me (oh, it's too much)  
Giving me anxiety (yeah, it's too much)  
All this way too much for me (too much)  
All this way too much for me (too much)  
Can we all take it down, down, down  
(Oh, Can we all take it down oh ah)  
Can we all take it down, slow-slow, down, down, down, down  
(Aah oh oh)
