

Big Sky

The Wild Feathers

Free as a highway
Wild as the wind
I can hear her callin' my name
Callin' me home again Wide open spaces
Cool mountain breezes
Reachin' down to save my soul
Take these city blues away
The closest thing to heaven that you'll find
Headin' for the big sky
Won't you come with me
We'll find a reason
Reason to believe again
There's still a paradise
The closest thing to heaven that you'll find
Headin' for the big sky It seems like all we do is talk
Bout the lives people walk away from
Let's pack the car and leave tonight
Drive until the city lights fade, fade, fade
Let 'em fade away
Wide open spaces
Cool mountain breezes
Reachin' down to save my soul
Take these city blues away
The closest thing to heaven that you'll find
Headin' for the big sky
The closest thing to heaven that you'll find Big sky
Big sky
Big sky
