

# I Remember Yesterday

Donna Summer

I'd like to take some time to reach into  
the past  
to take some old songs and some new  
songs  
some borrowed and some blue songs I remember yesterday  
I remember yesterday I remember that first night we met  
dancing to the sounds of clarinets  
dancing cheek to cheek, oh how sweet  
you and me and this fantasy  
oh I remember our first night  
I remember how we carried on  
on and on until the light of dawn  
from the very start, you stole my heart  
I knew right then we would never part  
Oh I remember that first night Remember that first night  
remember that first night I saw your lovelight through the candle's glow  
champagne was flowing, and so I let myself go  
and when the night was over, we both looked around the room  
remember darling, chairs on the table, and only me and you  
I remember how we carried on  
on and on until the light of dawn  
and from the very start, you stole my heart  
I knew right then we would never part  
I remember that first night Remember that first night  
remember that first night  
remember that first night
