

So Human (feat. Little Simz)

Rosie Lowe

No holding back
Lay your army down
No need for that
If you just relax
You can tell me anything
I'm ready to be everything I love it when you seem so human
Nothing [?] went so confusing
Obviously you've cried before and lied before
Makes me feel I'm alright
I love it when you seem so human
Nothing [?] went so confusing
Obviously you've cried before and lied before
Makes me feel I'm alright
I know why you're here, here
Make yourself comfortable
Make this house your home
You built your walls high, me knocking down
I can feel you better when you're not around with me
Good, lie next to me, nothing wrong with a little therapy, oh I love it when you seem so human
Nothing [?] went so confusing
Obviously you've cried before and lied before
Makes me feel I'm alright
I love it when you seem so human
Nothing [?] went so confusing
Obviously you've cried before and lied before
Makes me feel I'm alright I can sleep so good at night
I can sleep so good at night
Take your lie (Pull it out)
Take your mind (Pull it out)
All my love (Pull it out)
We don't need [?]
Take your lie (Pull it out)
Take your mind (Pull it out)
All my love (Pull it out)
We don't need [?] I love it when you seem so human
Nothing [?] went so confusing
Obviously you've cried before and lied before
Makes me feel I'm alright
I love it when you seem so human
Nothing [?] went so confusing
Obviously you've cried before and lied before
Makes me feel I'm alright I can sleep so good at night

When there's nothing left to hide
