

# Either Way (feat. Joey Bada\$\$)

## Snakehips & Anne-Marie

If you want it like that you should show me  
Uh, bring it back like you own me  
If you want it like that you should show me  
Uh, holla, just like you owe me some  
What's going on?  
Whatcha doing tonight?  
'Cause I wanna see what it's like  
You decide where we go if ya wanna  
My place or yours  
My place or yours  
What's going on?  
If you made up the plans then you gotta  
Help me now, let me know  
Help me now, let me know  
C'mon let me know, let me know  
Help me now, let me know  
I'm good either way, either way  
Good either way, either way  
Um whatcha say?  
(If you want it like that you should show me)  
Um whatcha say? Whatcha say?  
(Gonna bring it back just like she own me)  
Either way  
(If you want it like that you should show me)  
Either way  
(Uh hold up) Barely a friend  
I can play one-two if you wanna  
What's on your mind?  
'Cause I got a few things in mind but you gotta  
Help me now, let me know  
Help me now, let me know  
C'mon let me know, let me know  
Help me now, let me know  
I'm good either way  
(If you want it like that you should show me)  
Either way  
(Gonna bring it back just like she own me)  
Good either way  
(If you want it like that you should show me)  
Either way  
(Uh, hold up) Um whatcha say?  
(If you want it like that you should show me)  
Um whatcha say? Whatcha say?

(Gonna bring it back just like she own me)  
Either way  
(If you want it like that you should show me)  
Either way  
(Uh, hold up)Now she come over, don't wanna leave  
In my crew, she must have thought she had a steady key  
Let it fist me up a blade and roll my weed  
We could call it low dick, it's fine with me (it's cool, it's cool)  
If you wanna play it safe, rock you right to sleep  
Go out on a date, take you out to eat  
Twenty-five bands on the shopping spree  
She ain't never got no plans, she just follow me, just swallow me  
Baby, just tell me what you wanna do  
I'm easy, I'm easy, I'm easy  
I'm easy, I'm easy, believe me  
Baby, just tell me I won't disapprove  
I'm easy, I'm easy, I'm easy  
I'm easy, I'm easy, believe me  
C'mon let me know, let me know  
Help me now, let me know  
C'mon let me know, let me know  
Help me now, let me know I'm good either way  
(If you want it like that you should show me)  
Either way  
(Gonna bring it back just like she own me)  
Good either way  
(If you want it like that you should show me)  
Either way  
(Girl, just bring it back like you own me)Um whatcha say? (Aye, whatcha say?)  
Um whatcha say? Whatcha say?  
Good either way (Good either way)  
I'm good (Either way, either way homie)  
Either way  
Either way, either way, either way shawty
