

International Anthem (feat. Doktor)

Flux Pavilion

We'll turn up the temperature
We'll turn up the fireplace
We turn up the pressure gauge
And we'll turn up the heavy bassGun shot, bang bang
DJ kick it like thunder
Pull it up, rude boy
Mistah pull it up, rude boyOh my god, this sound is so bad
We feeling the vibes of everybody going wild
Everybody put up all their hands there
Sing this international, international
This international anthem
Sing this international, international anthem We'll turn up the temperature
We'll turn up the fireplace
We turn up the pressure gauge
And we'll turn up the heavy bassGun shot, bang bang
DJ kick it like thunder
Pull it up, rude boy
Mistah pull it up, rude boyOh my god, this sound is so bad
We feeling the vibes of everybody going wild
Everybody put up all their hands there
Sing this international, international
This international anthem
Sing this international, international anthem Oh my god, this sound is so bad
We feeling the vibes of everybody going wild
Everybody put up all their hands there
Sing this international, international
International, international...
This international anthemSing this international, international anthem
