

# My Hands

David Archuleta

Oh woah oh ohh oh  
Accidentally, on purpose  
I dropped my watch behind the tire  
Threw my alarm clock inside the fireplace, yeah  
And I put the parental control on  
On the news and the weather channel I'm outside in my robe, I'm looking for you, oh  
If every thing'd stop, I'd listen for your heart  
To lead me right to you, yeah  
I tried every way I can  
But it's harder to hold on to your hands  
Than the hands of time, I need a hand, girl  
I'm trying to hold on  
Losing strength in these hands of mine  
I need you here  
I'm trying to hold on  
I'm standing here, open hands  
And I, know I can't do this alone  
Hold on, hold on, lemme hold on  
(Hold on to my hands)  
(Can you) Hold on to my hands (Don't let go of my hands)  
Don't let go  
I don't think this is working  
Freezing so hard, my hands are hurting  
Ought to let go in the first place, yeah  
And I put the phone on the front lawn  
Everything that shows time is gone  
I'm outside in this cold still looking for you  
Ohh oh  
If every thing'd stop, I'd listen for your heart  
To lead me right to you, yeah I tried every way I can  
But it's harder to hold on to your hands  
Than the hands of time, I need a hand, girl  
I'm trying to hold on  
Losing strength in these hands of mine  
I need you here  
I'm trying to hold on  
I'm standing here, open hands  
And I, know I can't do this alone  
Hold on, hold on, lemme hold on (Hold on to my, my hands, yeah)  
(Don't let go of my hands)  
Don't ever let me go  
(Hold on to my, my hands, yeah) (Don't let go of my hands)

If every thing'd stop, I'd listen for your heart  
To lead me right to you, yeah  
I tried every way I can  
But it's harder to hold on to your hands  
Than the hands of time, I need a hand, girl  
I'm trying to hold on  
Losing strength in these hands of mine  
I need you here  
I'm trying to hold on  
I'm standing here, open hands  
And I, know I can't do this alone  
Hold on, hold on, lemme hold on  
(Hold on to my hands)  
Can you hold on to my hands?  
(Don't let go of my hands)  
Don't let go  
(Hold on to my hands)  
Can you hold on to my hands?  
(Don't let go of my hands)  
Baby, hold on  
(Hold on my hands)  
Ohh oh
