

Sugar Rush

Cash Cash

I took my time, I never touched
When you danced you tease me
All night sugar rush
Just gimme a taste tonight Oh girl, you're too much
I'm burning up right now and I need your touch
Come on let's take a ride, crash and we'll collide
Just give it a chance tonight So I can taste you on my tongue
With your lips to kiss like a red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end
I hate the chase, just stop the clock
'Cause you're so close now
That I can taste sugar rush
Then up and go without a trace Oh, you and your hoax
You got me all lit up in your fireworks
Come on light the sky, sparks will shoot and fly
Let's give it a chance tonight So I can taste you on my tongue
With your lips to kiss like a red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end T-t-taste you on my tongue
With your lips to kiss like a red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end
Hold me down till the very end
Sweet, sweet love's making me go
I'm off the walls making me fly
I can't sleep, got a big crush
I can't sleep, need a sugar rush
Sweet, sweet love's making me go I taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end T-t-taste you on my tongue
With your lips to kiss like the red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end T-t-taste you on my tongue
With your lips to kiss like a red hot sun
You're one big sugar rush
Suck me in, suck me in, hold me down till the very end
'Cause you're bound to be one big sugar rush
Suck me in, suck me in, hold me down till the very end
