

# Acid Rain

## Avenged Sevenfold

Our day has come  
It's drawn in the sky  
So don't shed a tear now  
Be thankful for the time Life wouldn't be so precious dear if there never was an end Children  
still play in the garden  
Dance as the sun slips away We stand on the edge now  
We've come so far  
Through all the dust it becomes clear  
You will always be my heart  
There's no death, no end of time when I'm facing it with you Children still play in the garden  
Dance as the sun slips away  
Not even stars last forever  
Cleanse us Acid rain Stand near to me  
Don't look be brave  
Over the blackened moon  
I'll carry you away  
Through the planets we fly  
Children still play in the garden  
Dance as the sun slips away  
Not even stars last forever  
Cleanse us Acid rain  
Send us home  
Send us home  
Send us home  
Send us home
