

# Cut 'Em Off

Dizzee Rascal

Uh  
I socialise and review the situation (negotiate)  
I socialise and review the situation (negotiate)  
I socialise and review the situation (negotiate)  
Then cut em' off  
Review the situation take part take over(Socialise and negotiate, I cut  
'em off, I cut 'em off)  
Review the situation take part take over  
Review the situation take part take over(Socialise and negotiate, I cut  
'em off, I cut 'em off)  
Review the situation take part take over  
My name is Raskit listen to my flow  
I socialise in hackney and bow  
I wear my trousers ridiculously low  
I love females, money and creps  
I'm kind of street wise I think that you should know  
You're not a bad boy you're puttin on a show  
You're talkin 'bout creepin up on Rusko  
So keep creep crawlin coz I'm talkin bigger steps  
My name is Raskit listen to my slang  
I socialise with the crew and the gang  
Roll utes on the street is where I hang  
I'll make you collapse leave gaps in your face  
You're in your neighbourhood thinkin that you're nang (oh please)  
Got your people thinkin that I'm dang (oh please)  
But if you try it I'll make a Rachett bang (oh no)  
You can never outplay me I'm a ace  
I'm not a smoker but I blaze a lot  
Sit around puffin waste my days a lot  
Although I shouldn't waste time coz I ain't got a lot  
I'm just lazy  
I'm not a rachett but I bang a lot  
Got a couple beanies that I slam a lot  
I'll make 'em happy with my fingers and my hand a lot (finger!)  
I'm just crazy  
(Chorus)  
Socialise and negotiate  
I cut 'em off, I cut 'em off  
Socialise and negotiate  
I cut 'em off, I cut 'em off  
Review the situation take part take over  
Review the situation take part take over

Review the situation take part take over  
Review the situation take part take over There you go again talkin like a div (shit)  
Like a can't find out where you live (man it's easy)  
Take off your latch I dont even need a ratch  
My butterfly leave you lookin like a sieve  
Met bad boys from every postcode (uh)  
You could never talk to me about road  
Stop dreamin' im your worst nightmare  
Im freddy Krueger make the luger explode  
There you go again talkin' like a star  
Like I cant find out where you are  
Kick off your door I ain't got a 4.4  
I'll have to settle for a long metal bar (and)  
I've met bad boys from every ruff ends  
You could never talk to me about skengz (click click)  
Talk tuff but you aint sayin much  
I'll chop you up and share you out between your friends  
Now some love me some do the opposite  
If you feel to move to me please get on with it  
Don't know why you feel the need to talk to birds  
But talk is dangerous be careful with your words  
But remember this I am you  
So if you think your real do what you gotta do  
On a level your just challengin yourself  
If your feelin brave go ahead and hurt yourself (Chorus)  
Socialise and negotiate  
I cut 'em off, I cut 'em off  
Socialise and negotiate  
I cut 'em off, I cut 'em off  
Review the situation take part take over  
Review the situation take part take over  
Review the situation take part take over  
Review the situation take part take over We cut 'em off, cut 'em off  
Review the situation take part and take over  
Nothin else  
We cut 'em off, we cut 'em off, we cut 'em off, we cut 'em off  
Look, review the situation take part take over  
Review the situation take part take over  
Review the situation take part take over  
Review the situation take part take over  
Come
