## Here to Stay

## **New Order**

Who is this man
That follows me
This blue eyed boy
Who wants to beThis worthy cause
Of human kind

This pawn set up by timeLike a bright light on the horizon
Shining so bright, he'll get you flying
He'll drive you away, he'll drive you insane
But then he'll remove all of your pain
Like a bright light on the horizon
Shining so bright, he'll get you flying

Shining so bright, he'll get you flying He'll get you flying, he'll get you flying He'll get you flying, flying, flying

This open book

Yet to be read

This second look

This leap aheadThe hope I held inside

With you, was kept aliveLike a bright light on the horizon
Shining so bright, he'll get you flying
He'll drive you away, he'll drive you insane
But then he'll remove all of your pain
Like a bright light on the horizon
Shining so bright, He'll get you flying
He'll get you flying

He'll get you flying, He'll get you flying He'll get you flying, flying, flying

We're here to stay

We're here to stayLike a bright light on the horizon Shining so bright, he'll get you flying He'll get you flying, he'll get you flying He'll get you flying, flying, flying
